Yo!Noid slides through the pipe

YOU'VE ALREADY SEEN HIM ON TV: He's the NOID—the pizza-chomping prankster from the Domino's Pizza® commercials. But now he's on a new mission. And that means lots of fun for your players!

Yo!Noid is an adventure that takes you skipping, skating and skyscraper scaling through the streets of New York City. Your players will need every gimmick imaginable to out-prank the group of slippery scoundrels who are disrupting the Big Apple with assorted monkeyshines and shenanigans. A mysterious NOID look-alike is the buns behind the bad guys. But if Yo!Noid can prevail, the reward is a lifetime supply of pizzas. Players of all ages will enjoy romping through the 14 levels of fun. And the good times don't stop there.
